

## Site Plan

1. Mobile Hardware to Go
2. Our mission is to provide high-quality repair parts and solutions for both professionals and DIYers at competitive prices. We strive to deliver dependable parts and customers service whenever you, our consumer, need it.
3. The types of products will be replacement parts for mobile devices such as phones and tablets.
4. The ideal customer would be those working either professionally or freelance on repairing mobile devices.
5. There are several dedicated communities across social media as well as pop up shops that could be approached about the site.
6. Ideally every payment system except for cash.
7. To begin with it will all be done in-house by me and branch out as the business grows.
8. I would get an SSL certificate, comply with PCI DSS standards, have a firewall set up, and require user authentication before purchasing amongst other things.
